**Subject:** Kalamazoo Superfund Site

Good Afternoon Michael –

I wanted to ask you some questions about the Kalamazoo Superfund Site and I was hoping that you would be able to help me out.

I wanted to inquire about, “Operable Unit 5 – Area 3,” We heard that there could potentially be a time critical removal action. If so, what is the current status?

How about OU5 – Area 1,2,4,5,6,7? Is the RI underway for some of the areas or for all of them?

We have heard that OU2-OU4 are complete, is this accurate?

OU1 – is the public comment period over or extended?

Can you confirm that AMEC is working for Georgia Pacific? Anyone else we should be aware of?

Who is the Entire Kalamazoo River Superfund EPA contact? Are there different contacts for different phases?

Any other information in progression of sites, consultants, PRP's, etc. would be greatly appreciated. Thank you so much for your time, I appreciate it.

**Jenni Brechtel**
